Biological Waste Management

The organic waste stream is composed of waste of a biological origin such as paper and cardboard, food, green and garden waste, animal waste and bio solids and sludge's. Organic waste is usually generated as a component of most waste streams. For information on the treatments for managing organic wastes click on the links to the right. Four significant components of this organic, biodegradable stream are from food preparation, agricultural production, livestock manures, and municipal sewage sludge. Organic waste from food sources includes vegetables, fruits, grains, meats, fish, dairy products, etc., and constitutes some 18% of the typical municipal organic waste stream. An average of 1 kg per person per day of organic waste is produced, originating from households, wholesalers & processors, restaurants, and institutions. Urban centers are the major generators of organic food waste. Agricultural waste includes waste made up of those materials such as manure and animal output, in either solid or liquid form from poultry or other livestock operations. It also includes harvest remains from grain, oilseed, vegetable, and orchard crops.
Increase in biological waste has led to the increase in biological waste management technology. Waste management is the collection, transport, processing or disposal, managing and monitoring of waste materials. The book includes organic waste for biological treatment, organic waste forms and treatment strategies, transformation of liquid manure into a solid, modeling of agricultural waste treatments, utilization of Indian waste in livestock feeds etc. This book also explains the different types of organic wastes like waste from tomato, jute, cotton, agro-industries, dehydration process of onion, piggeries, poultry, milk parlour etc. This book describes the methods how organic waste can be converted into useful products like oxalic acid, ox tetracycline, humic acids etc. The book is highly recommended to new entrepreneurs, existing units who wants to get more information of organic waste treatment.
# Table of Contents

1. **Organic Waste for Biological Treatment**

2. **Organic Waste Forms and Treatment Strategies**

[www.entrepreneurindia.co](http://www.entrepreneurindia.co)
3. Transformation of Liquid Manure into a Solid
Possible Processes for Manufacturing Solids from Wet Manure, Methodology of the Selected Process and Design of Plant, Tests of the Plant, Producing the mixture for composting, Producing the pellers, Composting, Drying, Qualities of the Product, Mechanical stability, Odour, Pathogen destruction, Fertiliser, Evaluation of the Process

4. Tomato Waste Water Treatment
Materials and Methods, Experimental cycle, Experimental apparatus, Results, Discussion, Cost Analysis, Conclusions

5. Oxalic Acid From Jute Stick
Methods, Alkali fusion, Nitric acid oxidation, Results and Discussion, Alkali fusion process, Nitric acid oxidation process, Effect of reaction time, Effect of temperature, Effect of catalyst concentration, Effect of nitric acid concentration, Nitric acid oxidation, Conclusions

6. Digestion of Cotton Processing Waste
Methods, Substrate, Analytical methods, Batch fermentation, Bench-scale
7. Properties of Sorghum Stalk
Nomenclature, Methods, Selection of materials, Harvesting schedule, Sample preparation, Measurement of physical properties, Strength characteristics of sorghum stalk, Compression strength, Tensile strength, Shear strength, Results and Discussion, Overall and internodal lengths, Moisture distribution, Solid density of stalk, Compressive strength, Tensile strength, Shear strength

8. Fermentation of Fish Waste
Methods, Fish, Sample preparation, Inoculum, Analytical methods, Microbiological examination, Statistical analysis, Experiment 1, Experiment 2, Experiment 3, Experiment 4, Experiment 5, Results and Discussion

9. Agro-Industrial Wastes
Methods, Results and Discussion
10. Bioconversion of Pretreated Wheat Straw and Sunflower Stalks to Ethanol
Methods, Substrates, Enzyme, Substrate hydrolysis, Analytical methods, Ethanol assay, Ethanol production, Results and Discussion, Pretreatment of wheat straw, Pretreatment of sunflower stalks, Yeast fermentation

11. Modelling of Agricultural Waste Treatments
Chemical Reactor Theory, Microbial Kinetics, Model Implementation, Extension of the Previous Model to Digestion

12. Utilization of Waste of Dehydrated Onion
Methods, Isolation of Yeasts, Maintenance of strains, Preparation of onion juice from waste products of the dehydrated onion industry, Fermentation media, Tests of C and N sources, etc., Onion juice media, Analytical methods, Results and Discussion, Production of fodder yeast in a laboratory medium, Production of fodder yeast in an onion juice medium

13. Palm Oil Mill Effluent Disposal on Land
Methods and Results, Infiltration tests, Small-scale trials of the general effects of
application of sludge (POMS) to land Trial 1, Application to give Specific Benefits to Land, Mulching effect (Trial 3), Restoring rintailings (Trial 4), Commercially Practical Methods and Optimum Input Rates for Application to Oil Palms, Preliminary trials, Long-term experiments (Trial 7), Discussion

14. Studies on Beef-Cattle Manure Slurry Model Development, Materials, Methods, Measurement of rheological properties, Apparatus and procedure, Results and Discussion, Temperature and total solids effect on limiting viscosity, \( k \), Temperature and TS effect on \( K' \), Summary and

15. Meat Meal and Algae for Calves
Methods, Results and Discussion, Performance of calves, Nutritive value of the ration

16. Manures and Sewage Sludge's for Algal Growth
Materials and Methods, Collection and treatment of samples of sludge and manure, Analysis of the wastes, Preparation of media for cultivation of algae, Analysis of properties of waste extracts, Cultivation of algae in various media, Analysis of properties of waste-grown algae, Results, Properties of the wastes, Properties of the waste extracts, Growth rates of algae in various waste extracts, Oven-dried weight of
18. Tower Digestion of Pig Waste
Methods, Equipment, Seed sludge, Pig manure, Tower operation, Analytical methods, Flocculent testing, Experimental design, Results and Discussion, Tower design changes, Flocculent testing, Tower performance, Flocculent effectiveness in the tower, Prospects for scale-up

19. Nutritive Value of Poultry Waste
Methods, Results and Discussion

20. Digestion of Rabbit and Pig Waste
Methods, Experimental design, Digesters, Substrates, Experimental procedure, Analytical methods, Results and Discussion, Energy production, Rabbit wastes, Mixed substrates: v, Pollution Control, Rabbit wastes, Discussion

21. Chemical Composition of Palm Oil Mill Effluent
Methods, Sampling, Fractionation procedure, Assays, Results and Discussion, Pome, Clarification sludge, Conclusions,

22. Humic Substances from Composed Barks
Methods, Organic fertilizers, Chemical analysis, Extraction of humic matter, Sephadex
25. Humic Acids on Hydrolysis of Potato Protein
Methods, Materials, Analysis, Experimental procedures, Results, Discussion

26. Effects of Composts on Wheat Yields
Materials and Methods, Results and Discussion, Composition of composites, Experiment 1. Evaluation of composites on an equal nitrogen basis, Experiment 2. Evaluation of composites when added at a flat rate of 5 t/ha in addition to NPK fertilizers

27. Production of Ox tetracycline
Methods, Maintenance of Streptomyces rimosus 12907, Vegetative medium, Fermentation medium, Production of ox tetracycline in a fermenter (1200 liter), Determination of amino acids present in fermented mash, Anti-microbial spectrum of ox tetracycline present in the dry mash, Results and Discussion

28. Use of Manure in Fish Farming
Keeping Livestock in the Vicinity of Fish Ponds, Applying Manures to Fish Ponds, Adding Manures to Feeds, Economic Comparison of Feeding and Manuring, Modes of Action of Manure, Direct Consumption of Manure, Manure as a Fertiliser for Autotrophic Production

29. Bacteria in Swine Waste
Materials and Methods, Analytical techniques, Results, Identification, Effect of waste concentration, Effect of pH, Effect of sulfide concentration, Protein production and nutrient uptake, Discussion, Growth characterization, Protein production and treatment capacity, Integration with algal systems
30. Poultry Waste Water as Broiler Feeds
Results and Discussion

31. Utilization of Indian Wastes in Livestock Feeds
Prominence of Salseed Meal, Similarity of Oak Kernels and, Salseed Meal, Oak Kernels in Poultry Mashes, Oak Kernels in Cattle Rations, Importance of a Negative Control in Experimental Designs, Rationing of Animals on the Minimum Adequate Requirement

32. Methane from Cattle Waste
Methods, Herd characteristics, Fermenter substrate, Fermenters, Experimental, Results, Discussion, Methane yield, Temperature effect

33. Treatment of Milking Parlour Wastewater
Methods, Pilot-scale reactor system description, Time allocation and operation of each phase of reactor, Analyses, Results and Discussion

34. Indicators of Pig Slurry Odours
Materials and Methods, Chemical analysis, Odour offensiveness test, Raw slurries of excreta, Treated slurries, Results and Discussion, Non-specific characteristics,
35. Pig Liquid Manure
Materials and Methods, Results, Discussion

36. UASB Treatment of Wastes
Introduction, Materials and Methods, Sampling and analysis, Seed sludge, Wastewater characteristics, The 30 m³ semi-technical experimental, pilot plant, RESULTS, Start up and operation, Loading rates and treatment efficiency, Sludge wash out, COD balance and sludge increment, Sludge retention and total methanogenic activity, Discussion, The performance of the reactor at an intermittent feeding, Performance at process temperatures of 20 °C and 30 °C, Sludge retention and sludge wash out, The rate of hydrolysis in the reactor

37. Digestion of Poultry Litter
Methods, Digester feedstock, Digester construction, Digester operation, Analytical methods, Data handling, Solids digestion, Results, Daily fed digesters, Batch digestion, Discussion, Daily fed digesters, Litter composition, Ammonium-N levels, Gas composition and biogas yields, Kinetic model, Batch digestion
38. Beef-Cattle Manure Slurries
Material, Methods, Apparatus, Computational procedure, Modified Reynolds Number,
Results, Comparing capillary and rotational viscometer results, The $f=\text{NRe}$ correlation for
cattle manure slurries, Summary and Conclusions,
Milking Parlor Wastewater, Indicators of Pig Slurry Odors, Pig Liquid Manure, UASB Treatment of Wastes, Digestion of Poultry Litter, Beef-Cattle Manure Slurries, BOD management, air pollution, Biological fermentation of fish waste, Utilization of Agro-industrial Wastes, physical properties Strength characteristics of sorghum stalk, soil pollution, Pathogen destruction, Fertilizer, Nitric acid oxidation, Nitric acid oxidation process, Solid density, Compressive strength, Tensile strength, Shear strength of stalk,, Enzyme, Isolation of Yeasts, Maintenance of strains, Preparation of onion juice from waste products of the dehydrated onion industry, Production of fodder yeast in an onion juice medium, Yeast fermentation, Chemical Reactor Theory, Microbial Kinetics, Ethanol production, Collection and treatment of samples of sludge and manure, Preparation of media for cultivation of algae, Analysis of properties of waste-grown algae, Growth rates of algae, Seed sludge, Pig manure, Pig manure and rabbit wastes, Organic fertilizers, Manure as a Fertilizer for Autotrophic Production, Effect of pH,
Niir Project Consultancy Services (NPCS) can provide Process Technology Book on The Complete Book on Biological Waste Treatment and their Utilization

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.

Here’s we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is “Instant Online Project Identification and Selection”
NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.

An ISO 9001:2008 Company
Who are we?

○ One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

○ We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Business Plan
- Industry Trends
- Market Research Reports
- Technology Books and Directory
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
Our Approach

- Requirement collection
- Thorough analysis of the project
- Economic feasibility study of the Project
- Market potential survey/research
- Report Compilation
Who do we serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI’s
- Foreign Investors
- Non-profit Organizations, NBFC’s
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations
Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling
Sectors We Cover

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct
Sectors We Cover

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer Based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing
Sectors We Cover

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries
Sectors We Cover

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing (Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.
Sectors We Cover

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.
Sectors We Cover

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
Sectors We Cover

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry (Packaged Drinking Water & Mineral Water)
- Wire & Cable
