Mushroom Production Process,
How to Start Button Mushroom Farming,
Mushroom Technology- Cultivation,
Processing
The Button mushroom (Agaricus bisporus) is a gilled fungus which naturally occurs in Europe and North America, though now occurs much more widely. Also called the table mushroom, white mushroom, common mushroom, cultivated mushroom, and called champignon de Paris in France, it is one of the most widely cultivated mushrooms in the world.
The button mushroom, better known as a white mushroom or sometimes Agaricus bisporus is the most widely cultivated, harvested, and distributed mushroom in the world. The mildly flavored, hardy fungus can be found fresh, dried, and canned in grocery stores all over the world.
The button mushroom has a classic mushroom like appearance, with a short thick stalk and a white cap. The mushroom is gilled beneath the smooth cap, and a small ring of flesh surrounds the stem where it meets the cap. When young, this ring of flesh forms a veil over the gills of the mushroom. This mushroom can be found growing almost anywhere, including lawns, compost piles, leaf mold, wood chips, dead trees, and well fertilized soil. They are easy to identify and to pick, making them a popular choice for mushroom hunters.
Button Mushroom is the most popular mushroom variety grown and consumed the world over. In India, its production earlier was limited to the winter season, but with technology development, these are produced almost throughout the year in small, medium and large farms, adopting different levels of technology. In the last ten years, large numbers of commercials units have been built by the entrepreneurs/ farmers throughout the country for the production of button mushrooms.
However, commercial production of white button mushroom was initiated in the hilly regions of the country (17-18°C) like Chail (Himachal Pradesh) Kashmir and Ooty (Tamil Nadu). The white button mushroom (Agaricus bisporus) is grown on compost based on various agricultural wastes and animal manure.
White button mushrooms are grown all over the world and account for 35-45 % of the total mushroom production. In India, large units with production capacities between 2000 – 3000 tonnes/annum, have been set up mainly as export oriented units in the southern, western and northern regions. A large number of small units without climatic control equipment exist throughout India and function during the autumn and winter months only. As a whole it is a good project for new entrepreneurs to invest.
The daily demand for mushroom is around 75 to 100 tonnes in Tamil Nadu alone.

The global market for mushrooms was valued at $29,427.92 million in 2013. This market is projected to grow at a CAGR of 9.5% from 2014 to reach $50,034.12 million by 2019.
Button mushrooms were the first mushrooms to be commercially exploited on an industrial scale and hence are more popular than other types. The button mushrooms segment contributed around 36.1% to the total Mushroom Market in 2013. The Mushroom market had a value of $35 billion in 2015. Between 2016 and 2021, the market is expected to grow by 9.2 percent. This would bring its size to nearly $60 billion in 2021.
Global mushroom market value is expected to exceed USD 50 billion in the next seven years due to growing mushroom demand in from the recent past. Mushrooms are considered good for health as they contain negligible sodium and gluten content. Low fat and cholesterol content is presumed to result in higher mushroom acceptance among consumers.
Global mushroom market was valued at over USD 35.08 billion in 2015, is expected to reach above USD 59.48 billion in 2021 and is anticipated to grow at a CAGR of slightly above 9.2% between 2016 and 2021.

The global button mushroom market was valued at USD 12.62 billion in 2016 is expected to reach USD 19.23 billion in 2022 and is anticipated to grow at a CAGR of 7.3% between 2017 and 2022.
Few Indian Major Players are as under

Major Queries/Questions Answered in the Report?

1. What is Button Mushroom industry?

2. How has the Button Mushroom industry performed so far and how will it perform in the coming years?

3. What is the Project Feasibility of Button Mushroom Plant?

4. What are the requirements of Working Capital for setting up Button Mushroom plant?
5. What is the structure of the Button Mushroom Business and who are the key/major players?

6. What is the total project cost for setting up Button Mushroom plant?

7. What are the operating costs for setting up Button Mushroom plant?

8. What are the machinery and equipment requirements for setting up Button Mushroom plant?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Button Mushroom plant?

10. What are the requirements of raw material for setting up Button Mushroom plant?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Button Mushroom plant?

12. What is the cultivation Process of Button Mushrooms?
13. What is the total size of land required for setting up of Button Mushroom cultivation?

14. What will be the income and expenditures for Button Mushroom plant?

15. What are the Projected Balance Sheets of Button Mushroom plant?

16. What are the requirement of utilities and overheads for setting up Button Mushroom plant?

17. What is the Built up Area Requirement and cost for setting up Button Mushroom Business?
18. What are the Personnel (Manpower) Requirements for setting up Button Mushroom Business?

19. What are Statistics of Import & Export for Button Mushrooms?

20. What is the time required to break-even of Button Mushrooms plant?

21. What is the Break-Even Analysis of Button Mushroom plant?

22. What are the Project financials of Button Mushroom plant?
23. What are the Profitability Ratios of Button Mushroom plant?

24. What is the Sensitivity Analysis-Price/Volume of Button Mushroom plant?

25. What are the Projected Pay-Back Period and IRR of Button Mushroom plant?
26. What are the Market Opportunities for setting up Button Mushroom plant?

27. What is the Market Study and Assessment for setting up Button Mushroom plant?

28. What is the Plant Layout for setting up Button Mushroom Business?

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like its characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Button Mushroom ” provides an insight into the Button Mushroom market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Button Mushroom project. The report assesses the market sizing and growth of the Indian Button Mushroom Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
Good Present/Future Demand  
Export-Import Market Potential  
Raw Material & Manpower Availability  
Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Button Mushroom sector in India along with its business prospects. Through this report we have identified Button Mushroom project as a lucrative investment avenue.
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Mushroom Production Process, How to Start Button Mushroom Farming, Mushroom Technology- Cultivation, Processing

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more
Download Complete List of Project Reports:

- Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services.
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad.
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field.
- We empower our customers with the prerequisite know-how to take sound business decisions.
- We help catalyze business growth by providing distinctive and profound market analysis.
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors.
- We use authentic & reliable sources to ensure business precision.
Our Approach

- Requirement collection
- Thorough analysis of the project
- Economic feasibility study of the Project
- Market potential survey/research
- Report Compilation
