Fruit Wine Production.
Fermented Alcoholic Beverages.
Wine from Fruits.
Fruit Wine Industry.
Wine Manufacturing Plant.

www.entrepreneurindia.co
Introduction

Wine is an alcoholic drink produced by the fermentation of sugars in fruit. Fruit wine is the name given to wines made from other fruits or blends of different fruits. Fruit wines are made around the world.

The wine industry is a global phenomenon. People of all ages and social groups drink wine from all over the world, and a multitude of countries and regions are famous for the wine they produce. People have been drinking wine for thousands of years, in fact, and the cultures of antiquity, particularly those of Greece and Rome, placed a great deal of religious and social value on the consumption of wine.
Fruit wines are fermented alcoholic beverages made from a variety of base ingredients (other than grapes); they may also have additional flavors taken from fruits, flowers, and herbs.

Fruit wines are made from a large variety of different fruits into a variety of wine styles. At Field Stone Fruit Wines, the fruit wines are made from 100% natural fruits grown in Alberta.

Fruit wines are prepared from the juice of fruits and naturally fermented with yeast. They are gaining popularity for their pleasant flavors and aromas. The alcohol formation in fruit wines is caused due to natural fermentation of fruits.
The primary difference grape wines and fruit wines is that for fruit wines chaptalization is processed with some specific enzymes that enhances the aroma quality of fruit wines. Whereas grape wine is produced at grape vineyards, which requires a specific atmosphere and cultivable land. However, due to advancements in technology, production of wines is becoming more flexible. The other difference is that grape wines such as red wine compliment western cuisines, whereas, fruit wines compliment spicy food cuisines.
Market Outlook

Indian wine is set for record production levels of some 18 million litres in 2016. In India the three major wine producing regions are Maharashtra, Karnataka and Himachal Pradesh.

India’s wine market was growing with a CAGR of 16.29% over a period of four years.

The demand of both the domestic and foreign wines has been growing day by day. There is enough room for each and every wine brand, be it Indian or foreign, in the Indian market as the market has registered a significant percentage of growth in both volume and value terms in recent years.
India ranks 77th in terms of world wine consumption. The per capita consumption in India is only 20 ml per year. India consumed 0.8% of total wine consumed in Asia.

Consumption of wine in India is expected to reach 28 million liters by 2017. Wine consumption in India is expected to grow gradually and could reach 34 million liters by 2020.

India exported almost 20 lakh liters or 10% of total production in 2015. India’s wine export was calculated to be around Rs. 80 crore and is expected to increase to Rs. 500 crore in next five years.
India’s expanding wine industry is in the midst of a vital transition. Last year, the country’s wine production hit a record 17 million liters, with export sales rising 40 percent year-on-year to reach US$4.4 million in the first 7 months. With a rapidly growing export sector, expanding domestic consumer market and increasing industry support in major wine-producing States, the Indian wine industry has potential to be a global market competitor.
India Export of Wine, 2002-2014 (Million USD)
World wine consumption is around 25 billion liters per year with Europe accounting for almost 12 billion liters that is a whopping 55-60 liters of per capita wine consumption per year. Europe and other Western markets are a huge market for Indian Wines to tap into. Indian Restaurants in Western countries and Star Hotels in India also provide huge opportunity for Exotic Indian Wines.

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like it’s characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Fruit Wine” provides an insight into the Fruit Wine market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Fruit Wine project. The report assesses the market sizing and growth of the Indian Fruit Wine Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Fruit Wine sector in India along with its business prospects. Through this report we have identified Fruit Wine project as a lucrative investment avenue.

- **Detailed Project Reports**

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

NIIR Project Consultancy Services

An ISO 9001:2015 Company
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
Our Approach

- Requirement collection
- Thorough analysis of the project
- Economic feasibility study of the Project
- Market potential survey/research
- Report Compilation
